WHAT IS NEUROLOGIC MUSIC THERAPY® (NMT™)?

Neurologic Music Therapy® (NMT™) is a standardized evidence-based clinical treatment system of 20 techniques that is driven by advances in applied auditory music neuroscience and the clinical understanding of music perception, production, and cognition.

INSTITUTIONAL MEMBER OF THE WORLD
FEDERATION FOR NEUROREHABILITATION

When would I choose NMT™?

NMT™ drives measurable outcomes in **motor, speech and language, and cognitive rehabilitation.**

NMT™ works on functional non-musical skills through structured musical interventions to address **rehabilitative, adaptive, and developmental goals.**

NMT™ Professionals work in a **variety of in-person and Telehealth settings**, including neurologic rehabilitation, neuropediatric, neuropsychiatric, and neurodevelopmental.

Global Endorsements

- World Federation of Neurologic Rehabilitation (WFNR)
- European Federation of Neurorehabilitation Societies
- International Society for Clinical Neuromusicology
- U.S. Certification Board for Music Therapists (CBMT) as an approved provider

Who can practice NMT™?

- All training and professional designation must be acquired through the Academy of Neurologic Music Therapy®
- NMT™ Professional Affiliates must agree to and maintain License Terms and Conditions
- There are no prerequisites for the International Training Institute in NMT™
